

# SUPPLY CHAIN SUSTAINABILITY SCHOOL

May 2015 Issue

---

## The School Newsletter

Welcome to the second instalment of our monthly member newsletters. We've enjoyed a very successful launch of the School in Australia! The social media platforms are active, there are several events coming up, and the School continues to grow its membership base. Thanks for being a part of it!

### Major reforms are needed - Australian Infrastructure Audit

The Australian Infrastructure Audit has assessed the future drivers and challenges of the nation's infrastructure needs. It predicts the infrastructure industry is set for strong growth opportunities but also outlines important sustainability challenges to be addressed. Addressing these needs will require major reforms in the industry.

### Hundreds undertake self- assessment - Have you assessed yourself?

Members of the Supply Chain Sustainability School are using the Self Assessment Tool to assess their company's sustainability knowledge and strengths. This generates a prioritised Action Plan for your company to increase knowledge in a range of sustainability areas.

**mainroads**  
WESTERN AUSTRALIA

### **Upcoming Event:** Western Infrastructure Sustainability Conference

**Where:** Don Aitken Centre, Perth

**Date:** Thursday, 4 June

**Time:** 8:30am - 5:00pm

This is an opportunity to learn how infrastructure sustainability can improve the productivity (across the triple bottom line) of new projects and current asset networks in WA taking lessons from local leaders, the rest of Australia and globally.

## Partnership is the New Leadership – Supply Chain Accountability

A chain is only as strong as its weakest link. By demonstrating transparency and accountability for the sustainability of the buildings we design and construct – and by demanding it of others – we can create a ripple effect. Partnership is the new leadership. We must educate our suppliers and contractors about what being green really means.
