

Supply Chain Sustainability School Local Government Technical Partner

Why join a winning cohort of local government leaders?

Promotion

- Promote your successes, knowledge, key issues, products and services as well as build your network through Partner profile page, industry events, Partner only events, newsletters, social media and within the resource catalogue.

Learning

- Manage individual user targets and completions for your company, your projects and your priority suppliers.
- One (1) complementary custom 2hr workshop/event for your staff and/or suppliers for every ten (10) Local Government Technical Partners (shared benefit)

Leadership

- Collaborate with other local government leaders to develop resources for all local government organisations.
- Partner with others to achieve the UN Sustainable Development Goals (SDG #17).
- Lead School resource reviews and development projects for local government. You chose what's relevant from the current catalogue, what existing resources should be collated from elsewhere and what needs to be developed.

"The information gained from the Supply Chain Sustainability School website has enabled our company to access information and set up systems that would otherwise have been difficult for us (as a small family-run company) to justify. This has helped us to be able to grow the business successfully, in line with the best sustainable practices for the future."

Becoming a Partner is as easy as 1-2-3
