

## Vision

Collaborative accessible education for a sustainable future

## Mission Statement

The Supply Chain Sustainability School enables socially, environmentally and economically sustainable supply chains for all organisations in Australia and New Zealand through open access to educational resources.

## Values

### **Collaborative**

We build a consistent approach to developing sustainability skills through shared knowledge and resources. Our direction is led, and our resources are promoted by our fellows and members.

### **Integrous**

We deliver measurable impact through dynamic leadership and leading by example.

### **Inspirational**

We inspire our members and partners to drive positive change.

### **Inclusive**

We exemplify respect for the planet, our colleagues and wider society.

## Purpose

The School's object is to pursue the following charitable purpose(s):

- a) advancing education aimed at developing core skills in social, economic and environmental sustainability,
- b) promoting reconciliation, harmony, mutual respect, equality and tolerance between groups of individuals that are in Australia and New Zealand.
- c) promoting human rights including but not limited to the elimination of racial discrimination, elimination of discrimination against women, the rights of the child, the rights of persons with disabilities as well as economic, social and cultural rights.
- d) advancing the natural environment through educating the community about the natural environment, the preservation of flora and fauna, protecting native animals and preserving or rehabilitating habitats
